Enrobed Seasonings

It's all about Taste!

Consumers think that taste / flavour is the most important attribute when purchasing plant-based meat alternative products

Source: Griffith Foods North America primary research 2021

- Our new Enrobed Seasonings are the solution to provide a great taste to ready-to-cook, plant-based products.
- The enrobed technology protects the volatile flavour components of the spices and herbs, allowing for increased shelf-life of refrigerated products.
- Masks undesirable flavours from plant substrates.
- Superior delivery of gold-standard flavour profile and intensity.
